Army Corps of Engineers' Design Team Conducted Site Visits

During April 12-15, 2011, the US Army Corps of Engineers, Honolulu District's design team was on Palau to conduct site assessments for the repair of two areas (on the east route heading to Babeldaob) on the Compact Road that was completed in 2007. The team conducted detailed site evaluations, assessment into the availability of materials, equipment, and contractors, held discussions with the Ministry of Public Infrastructure, Industries & Commerce and EQPB, and coordinated future activities. The repair construction is anticipated to commence in 2012.
